## Volunteer Work Day

The Old Kingsbury Aerodrome and the Pioneer Flight Museum are on Pershing Lane just off of FM 1104 in Kingsbury.

They usually have one or two days a month where they invite **volunteers** to come and help with the buildings, grounds, planes, vehicles, and other equipment.

The next Volunteer Work Day will be

**Saturday, April 30th**

There's always projects that should pique a variety of interests: the WWI Dodd Field Hangar and Car Barn, are still "works in progress", plus there are always aircraft and Model T's that need TLC. Please consider joining and helping out!

## Black Moon

This Saturday night, the Black Moon will rise!

Like “Blood Moon” and “Blue Moon,” “Black Moon” is not an astronomical term. In fact, if you ask a sample of astronomers, both professional and amateur, very few will have even heard of it. It’s not even a particularly widely known folklore thing.

As for its definition, it’s a “Black Moon” if there is a new Moon twice in the same month. It’s similar to the Blue Moon, which has become a common term for the second full Moon in a month.

A Black Moon occurs usually every 32 to 33 months. This month’s Black Moon will be the second of three Black Moons in 2022 alone! This is an **extremely** rare event.

There is no astronomical significance to a Black Moon. Nothing happens, except the usual new Moon absence of any Moon in the sky, plus the stronger so-called “spring” tides we get for a few days around every full Moon and new Moon.

What will you see during a Black Moon? Uh, not much. During the new Moon phase, the Moon is not illuminated by the Sun and seems to disappear from the night sky. A new Moon is practically invisible to the naked eye, so there’s nothing to see during a so-called Black Moon.

Remember, there are four quarters of the Moon—the Moon phases. You all know the “full Moon,” when the entire disk of the Moon is illuminated by the Sun (because they are on opposite sides of the sky). In contrast, the “new Moon” has its dark side facing us. It’s not reflecting any of the Sun’s light because the Moon is lined up between the Earth and Sun.

Although there’s not much to see when a Black Moon rises, the good news is that a moonless sky is excellent for

stargazing since the Moon's light won't drown out the stars!

### WWI Service Men From Kingsbury

While not large in numbers of population, Kingsbury's citizenry has always stepped up to help the local community, state needs, and for the **defense** of our country.

Pictured below are WWI Kingsbury service men in 1917 (L to R): Albert Coates, Earl Coates, Charlie Littlejohn, Otto Hagemen, Alex Jones, and John Coates. They are standing on Railway Street with "the tree in the street" to their right and the Kingsbury National Bank behind them across Kingsbury Street.

The buildings behind them are N. G. DeLany's Fancy Groceries and the "Headquarters For Echo Spring Whiskey". Fancy groceries and whiskey - what else could a military man from Kingsbury ask for?!

## Know someone that should be on the Kingsbury Newsletter eMail List?

Send them this email! All they need to do is go to the [Kingsbury website](http://www.kingsburytexas.org), click on the weird little **dog** at the bottom of any page, and fill out their name and email address. It's so easy! Let's get everybody to be "in the know" about what's going on in their community.

**Thanks!**
