Kingsbury Texas

News & Information Newsletter

Dear Kingsbury,

Here's the latest on what's going on in Kingsbury!

Valentine's Day

Tuesday, February 14th, is Valentine's Day.

The traditions of Valentine's Day are broad and many. It is a time to exchange cards or small gifts. **Chocolates**, flowers, jewelry, and romantic dinners are the big hits of this holiday.

It is a romantic event for lovers, and a fun event for kids and family. Many a couple become engaged or wed on this day. For others it is a day to fall in love.

But it didn't start that way!

On February 14, around the year 278 A.D., Valentine, a holy priest in Rome in the days of Emperor Claudius II, was executed.

Under the rule of Claudius the Cruel, Rome was involved in many unpopular and bloody campaigns. The emperor had to maintain a strong army, but was having a difficult time getting soldiers to join his military leagues. Claudius believed that Roman men were unwilling to join the army because of their strong attachment to their wives and families.

To get rid of the problem, Claudius banned all marriages and engagements in Rome. Valentine, realizing the injustice of the decree, defied Claudius and continued to perform marriages for young lovers in secret. When Valentine's actions were discovered, Claudius ordered that he be put to death. Valentine was arrested and dragged before the Prefect of Rome, who condemned him to be beaten to death with clubs and to have his head cut off. The sentence was carried out on February 14, on or about the year 270.

Legend also has it that while in jail, St. Valentine left a farewell note for the jailer's daughter, who had become his friend, and signed it "From Your Valentine."

For his great service, Valentine was named a saint after his death.

Did you know? While 75% of chocolate purchases are made by women all year long, during the days and minutes before Valentine's Day, 75% of the chocolate purchases are made by men.

Just sayin'!

There's A Day For Everything

In case you didn't already know ... there's something every day to **celebrate!**

Here are some of the fun, unusual, or forgotten holidays this week:

February 12 - National Plum Pudding Day, National Pork Rind Day, National Darwin Day, National Hug Day, National Lost Penny Day

February 13 - National Cheddar Day, National Tortellini Day, Galentine's Day, National Clean Out Your Computer Day, National Football Hangover Day, Safer Internet Day U.S.

February 14 - National Cream-Filled Chocolates Day, National Ferris Wheel Day, National Organ Donor Day, Valentine's Day, National Pet Theft Awareness Day

February 15 - National Gumdrops Day, National Wisconsin Day, Singles Awareness Day, National I Want Butterscotch Day, World Hippo Day

February 16 - National Almond Day, National Do A Grouch a Favor Day

February 17 - National Cabbage Day, National Random Acts of Kindness Day, National Caregivers Day, No One Eats Alone Day

February 18 - National Battery Day, National Crab Stuffed Flounder Day, National Drink Wine Day, National Red Sock Day

Kingsbury City Limits

Do you have property in the Kingsbury area but not in the **official** Kingsbury city limits? Would you like it to be a part of the new city of Kingsbury? Let Kingsbury know! It's a simple "Voluntary Annexation" petition form to fill out and you can be on the list to be part of our Kingsbury.

Check out the "Kingsbury City Limits" page on the Kingsbury [website](#) to see the current map, get a petition form, and find more information on voluntary annexations.

Also, check out the Kingsbury "[Blog](#)" to see pictures of the first voluntary annexations! Need more information? Just fill out the "Contact" page on the Kingsbury [website](#) and a city official will get it to you. It's so easy!

The 2021 Texas Freeze

Two years ago this week, Winter Storm Uri hit Texas and crippled the state as temperatures dropped to as low as six degrees. Here's a day by day review of how the events and the power failures unfolded.

Wednesday February 10th:

It all began Wednesday, February 10th when a cold front moved through the area bringing the first surge of cold air into the region. With this cold air in place, lingering precipitation the following day fell as sleet and freezing rain across the northwestern counties.

Electric utility crews are put on standby around the state as weather forecasts project an extreme winter storm.

Thursday February 11th:

The first Winter Weather Advisory of this prolonged winter event was issued in the morning hours of Thursday, February 11th for Burleson, Brazos, and Madison counties as area roads began to become hazardous from the icy precipitation. This Advisory would end up getting expanded to include Washington and Grimes counties after sunset that evening and continued through Friday morning due to lingering precipitation. While this first taste of winter precipitation was impacting the region, a stronger Arctic cold front was progressing through the country and was expected to reach Southeast Texas late Sunday.

The cold temperatures freeze water in oil and gas wells (when extracted, the methane gas used in power plants and for home use comes up the well with water and other liquids). These freeze-offs at the wellhead lead gas production to plummet – days before anybody loses power. Gas production in Texas ultimately drops by 45%.

School districts begin to issue closure announcements in preparation for the storm.

Icy roads in Fort Worth lead to a 133 car pile-up and six deaths.

Friday February 12th:

On Friday, February 12th, a Winter Storm Watch was issued for the entire region for Sunday in anticipation for the potential snow, sleet, and freezing rain that this Arctic front would bring.

The Railroad Commission (the state's oil and gas regulator) orders gas deliveries be prioritized for homes – good news for the 40% of Texas homes heated with gas, but not so good, as we'll see, for the 60% of homes heated with electricity.

Saturday February 13th:

A Winter Storm Warning ended up getting issued on Saturday, February 13th for Colorado, Austin, Waller, Montgomery, San Jacinto, Polk counties and for counties north as sleet and freezing rain formed ahead of the approaching cold front.

Gas power plants do not have enough methane gas to meet demand. The supply shortage problem is compounded when equipment at the power plants also freezes. The weather also takes coal and nuclear

generators offline as lines, valves, and other equipment freeze. Dozens of wind turbines stop as ice forms around blades.

With no place to send gas, producing wells instead vent or flare it – 1.6 billion cubic feet of methane (a powerful greenhouse gas) in a single day.

Sunday February 14th (Valentine's Day):

The counties that remained in the Winter Storm Watch (Jackson, Wharton, Fort Bend, Harris, and Liberty counties and the other counties along the coast) got upgraded to a Warning for Sunday. Governor Abbott issues a disaster declaration in every one of Texas' 254 counties. The Texas Division of Emergency Management begins to deploy multiple state agencies to support response operations.

As expected, the strong Arctic cold front passed through Southeast Texas on Sunday (Valentine's Day). It served as the turning point from a significant winter storm the preceded the front to the historic winter event that would eventually unfold.

Every square inch of Texas was in a Winter Storm Warning. Snow, sleet, and freezing rain began to encroach into Southeast Texas Sunday afternoon, and then increased in coverage and intensity overnight Sunday night into Monday. Thunder snow was reported near the town of Snook, Burleson County Sunday evening, and then thunder sleet occurred near the Brazoria and Galveston counties coastline Sunday night. Roads began to become impassable through the region Sunday evening due to ice and snow and some would not become safe until Friday. Temperatures crashed down Sunday night behind the cold front with much of the area getting down into the teens or single digits with wind chills down into the single digits or even below zero. Because of these conditions, a Hard Freeze Warning and a Wind Chill Warning was in effect Sunday night/Monday morning. Cold weather disrupts 22 gas processing plants. Ultimately 38 gas plants shut down or reduce production, equivalent to 8.9 billion cubic feet per day of lost gas processing plant capacity.

Demand for electricity and gas surges as people turn up their heaters. The Electric Reliability Council of Texas (ERCOT) projects electricity demand will exceed available supply, and issues an urgent conservation alert. Unplanned generating unit outages escalate "sharply in the late-night hours of February 14 into the early morning hours of February 15, and ERCOT set an all-time winter peak record for system load of 69,871 MW at 8:00 p.m. on February 14."

ERCOT warns of possible rolling outages through Tuesday, the 16th.

President Biden grants Texas a Federal Emergency Declaration at Governor Abbott's request.

Monday February 15th:

A combination of the icy conditions and extreme cold temperatures caused widespread power outages that would last for the next several days. The wintry precipitation continued through Monday morning with storm total snow/sleet accumulations being around trace along the coast, around an inch near the Houston Metro, and up to three to six inches up across the north.

Starting just after 1 am, ERCOT starts ordering electric companies around the state to cut power (called "load shedding") to homes and businesses in order to prevent a complete shutdown of the entire grid. Areas designated as "critical" (for example hospitals) are left alone while other neighborhoods lose power. ERCOT orders more and more load shedding until supply and demand are finally brought into balance. 3.6 million homes and businesses are without power by Monday evening. Most of the state is now under a blackout.

A number of methane gas processing facilities, which failed to register as critical infrastructure, also lose power, increasing the difficulty of getting the gas to power plants.

A computer glitch leads megawatts to be taken off of the grid due to incorrect price signals. The Commission orders ERCOT to correct that problem manually, setting prices to \$9000 per megawatt-hour in hopes of encouraging more supply to come online. This ultimately results in staggeringly expensive energy bills being sent to residential customers.

After snow falls on much of the state, Texas supermarket chain H-E-B imposes rations on water and propane purchases.

While neighboring electric grids also suffer from generation outages, they are able to import power from the east coast, which did not have the same arctic weather conditions. Texas is effectively islanded from the rest of the nation's electric grids, able to import only 1000 megawatts.

Oil refineries, chemical plants and other industrial operators also lose power, leading 3.5 million pounds of pollution to be released.

Tuesday February 16th:

The extreme cold temperatures not just persisted through Tuesday morning, but dipped down even colder and produced the coldest morning of the event: the City of Houston went down to 13°F, Galveston down to 20°F, and College Station bottomed out at just 5°F.

Unfortunately, the week wasn't done yet. Another winter storm was anticipated to bring significant freezing rain along and north of Interstate-10 Tuesday night requiring an additional Winter Storm Warning. This new ice accumulation, combined with any refreezing of previous moisture, continued the hazardous road conditions

Tuesday evening through the day on Wednesday.

At its coldest point on February 15th and 16th, Texas temperatures were 40 degrees below normal. Governor Abbott goes on Fox News' Sean Hannity show to falsely claim that the blackout was largely caused by renewable energy. Hours earlier, a Senior Director for ERCOT said frozen wind turbines were "the least significant factor in the blackouts."

Governor Abbott declares the reform of ERCOT an emergency item for the legislature.

Wednesday, February 17th:

Conditions did not improve Wednesday night as lingering precipitation brought snow and sleet to the northern half of the region that lasted through midday Thursday.

Governor Abbott issues an executive order making gas producers sell to power generators in Texas rather than shipping the methane gas out of state.

Rick Perry, the former Governor of Texas and Secretary of Energy says Texans would go even longer without power "to keep the federal government out of their business."

Thursday, February 18th:

The wintry precipitation wound down Thursday evening, but the dangerously cold temperatures and hazardous road conditions continued.

After temperatures rose and more generation was brought online, ERCOT ends statewide rolling outages.

Friday, February 19th:

As the blackout crisis recedes, a new one emerges. Cold weather broke water mains and led people to drip their faucets to prevent their pipes from freezing, while power outages also hit water treatment plants. "Due to the combination of a drop in supply from treatment plants failing and the increase in water demand from dripping faucets and leaks, the pressure dropped in the system. A loss in pressure can lead to dangerous bacteria in the water supply."

Nearly 15 million people across Texas lose access to clean water and are forced to boil their water (from their taps or from melted snow) before drinking or cooking with it.

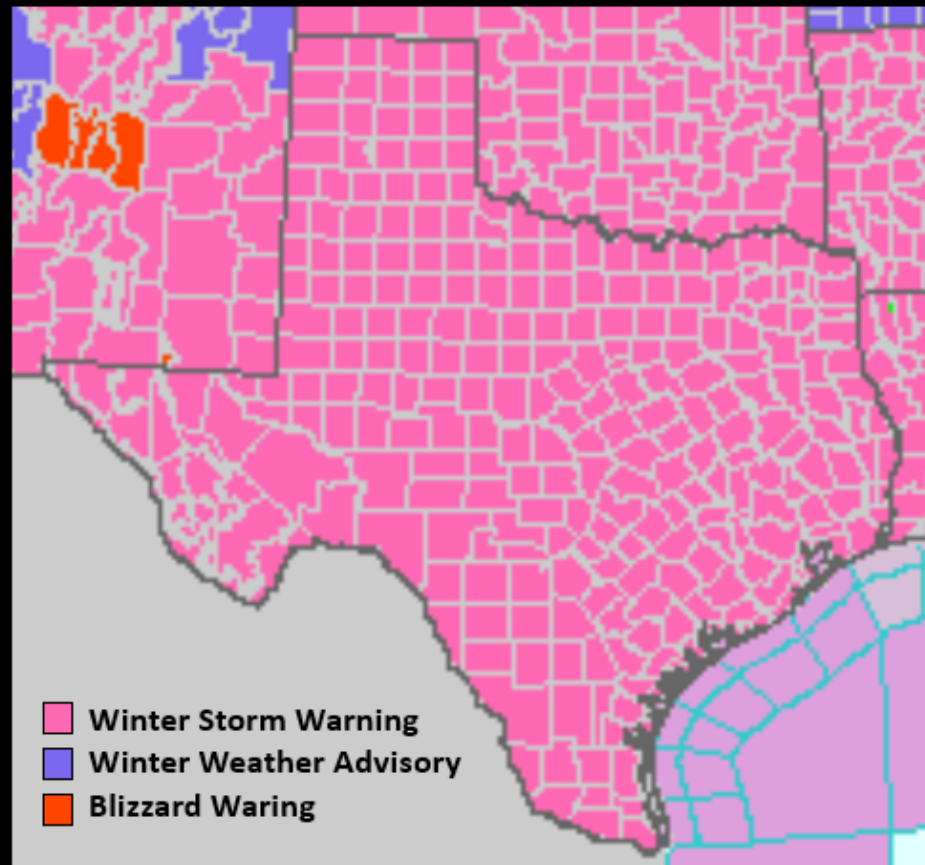

It wasn't until 9am Saturday morning that the last Hard Freeze Warning would expire for this event.

There was a total of 8 days, 23 hours, and 23 minutes of winter highlights between the first Winter Weather Advisory issued on Thursday, February 11th at 9:37am to when the last Hard Freeze Warning expired at 9am on Saturday, February 20th. More freezing rain and snow stalls restoration efforts leaving 2.8 million Texans without power.

In total, 69% of Texans lost power during the storm with outages averaging 42 hours. Hundreds were killed from hypothermia, carbon monoxide poisoning, and other problems resulting from the loss of power to critical medical equipment.

Uri was the costliest natural disaster in Texas history causing over \$195 billion in damages. 75% of Texans had difficulty obtaining food and 63% had difficulty obtaining water. Electric bills went up, with some receiving electric bills of up to \$17,000. During the freeze, methane gas providers posted approximately \$11 billion in profits. Texas residents will be paying gas companies on their bills for up to the next 30 years.

Entire State of Texas in a Winter Storm Warning on
Sunday, February 14th 2021

Kingsbury Items For Sale

Looking for a neat little Kingsbury gift or want to support your location Kingsbury VFD? The KVFD Auxiliary has tea towels, stemless wine glasses, and coasters available for sale in the Kingsbury Country Store on Railway Street.

Tea towels wine glasses are \$10 and coasters are \$5 and all **proceeds** go to the KVFD Auxiliary for support of our firefighters and first responders.

Come check it all out!

Kingsbury News Past

All the **news** that's fit to print about what *was* happening in Kingsbury . . .

The July 5, 1876 edition of the *Galveston Daily News* had items for quite a few counties in Texas. For Guadalupe County, the news was about the railroad getting almost to Mill Creek four miles from Kingsbury. I doubt that they set up a rolling depot as the tracks were built west so Kingsbury remained the last stop and passengers picked up a stagecoach here to go farther.

Many of the other news items reported on the different festivities and celebrations for the Centennial just the day before.

In other 1876 news, "The Fourth In Texas" highlighted goings on regarding the Centennial, dateline Kingsbury -

McLeroy was taken from the Seguin jail and is to be hung for the "Peach Creek Horror" he was part of with the "Campbell brothers" (McLeroy and a Miss Currier traveled from Hallettsville to Flatonia in the company of the Campbell brothers to get married. But McLeroy dumped her in Flatonia and she filed charges on him for stealing her horse and left for home with the Campbell brothers. Her body was later found on Peach Creek after having been hung from a tree.), Iowa has defined "habitual" drunkenness, and "Jamaica Fruit" (although I never thought of sweet potatoes as any kind of tropical fruit) has just arrived on the schooner *Mira A. Pratt*.

Elsewhere in 1876, Austin had quite the "anniversary exercises" for the Fourth including the song "Hail Columbia" by "a choir of fourteen voices", the Chamber of Deputies can't get along in France and keep challenging each other to duels, a clergyman and another gentleman got into it at a cricket match in England, and the Texas-built schooner *Adolph Flake* is the "best vessel ever turned out in Texas."

Also in 1876, the Centennial celebrations were dampened in Houston due to a "serious accident" with a cannon (I don't think there is ever a non-serious accident involving a cannon), due to "unprecedented rainfall" the Brazos river is so high it is said "to cover the tops of the telegraph poles", Buck's Brilliant Stoves sound absolutely awesome (plus I love the little drawing in their ad), and Lydia Thompson isn't coming to America this year so you might as well "stand in front of the show window of an artificial leg maker." This really confused me until I found out that Lydia Thompson was a famous burlesque performer and burlesque shows were often called "leg shows" at the time.

THE FOURTH IN TEXAS.

The Day Celebrated with Great
Eclat by the People of the
Lone Star State.

Observances at Austin Varied by
an Impressive Episode at
the Capitol.

Ceremony of Presenting the Por-
trait of Gen. Tom Green
to the State.

The Centennial at Houston Marred
by a Sad Accident in Fir-
ing a Salute.

Report of Demonstrations at Waco,
Sherman, Brenham, Hemp-
stead, Etc.

THE PEACH CREEK HORROR.

McLeroy, the Last of a Trio of Dem-
peradoes, taken from the Seguin
Jail by a Mob.

[Special Telegram to the Galveston News.]
KINGSBURY, July 4, 1876.

McLeroy, one of the accomplices in
the Peach Creek horror, was taken
from the Seguin jail this m. by a
mob of 300 men. They started with
him for Gonzales county; but the sup-
position is that he has ere this gone the
way of his companions, the Campbell
brothers, who were hanged by the mob
the other day.

To be Hanged in Gonzales.

[Special Telegram to the Galveston News.]
GONZALES, July 4, 1876.

The raiders passed here at 12 o'clock
last night for Seguin. They got McEl-
roy, and it is said they will hang him
here to-morrow. The Campbells are
quoted (and by men of undoubted verac-
ity) as saying they had two more
young ladies near Hallettsville staked
out as their next victims. McElroy,
it is said, boasts of his part in the deed.

Iowa law decides that "habitual"
drunkenness consists in being drunk at
least six times per week, with not more
than a glimpse at sobriety on Sun-
days.

JAMAICA FRUIT.....JUST ARRIVED!
500 bunches Bananas.
100 dozen Pineapples.
1000 Coconuts, Mangoes and Sweet Potatoes.
From schooner Mira A. Pratt, Kuhn's wharf.
July 11. NELSON & SAILER.

Austin.

[Special Telegram to the Galveston News.]

AUSTIN, July 4, 1876.

The Centennial Anniversary of Amer-
ican Independence was ushered in at
sunrise this morning with a salute of
thirteen guns, fired by the Austin Tur-
ners. At 10 o'clock the Travis Rifles
and Austin Grays marched to the Cap-
itol, where the anniversary exercises
were conducted in the following or-
der:

1st, National air by Hertzog's band;
2d, Prayer by Rev. E. B. Wright, of
the Presbyterian church; 3d, Declara-
tion of Independence read by H. B.
Kinney; 4th, Song, "Hail Columbia,"
by a choir of fourteen voices; 5th,
Oration by Hon. James H. Bell; 6th,
National air, "Star Spangled Banner,"
band.

DUELING IN FRANCE.

Several Combats between Legisla-
tors Looked for.

LONDON, July 4.—A telegram from
Paris to the Standard remarks that
several duels are looked for. They
grow out of violent scenes in the Cham-
ber of Deputies during the debate in
regard to alleged fraudulent practices
in connection with examinations at the
Polytechnic School. Deputies Kere-
sonet and Perrin have both challenged
Deputy Mitchell.

A cricket match was being played at
Faversham, in England, the other day,
when a dispute arose, and a clergyman
called a gentleman a liar. The latter
returned the compliment, whereupon
the former loudly demanded an apology.
Proclaiming his holy profession, he
stood before the wickets and stopped
the game. The gentleman stepped aside
to remonstrate with him, and received
a violent blow in the face. Then oc-
curred the disgraceful scene of a cler-
gyman of the Church of England en-
gaging in a pugilistic encounter, in
which several rounds were fought.

A Model Texas Vessel.

The new schooner Adolf Flake is now
at Lufkin's Wharf, receiving the finish-
ing touches, and is an earnest of the
quality of ship-building in Texas at the
present writing. The new vessel was
built at San Jacinto, opposite Lynch-
burg, by Capt. Andrew Boden, who
did the greater portion of the work with
his own hands, and is 60 feet long on
the keel, 20 feet 6 inches beam and 44
feet depth of hold. She measures 48
tons, and is built in the most thorough
and substantial manner, her frame be-
ing of post-oak and mulberry, with yel-
low pine planking. Capt. Boden is the
sole owner of the vessel, and intends
her for the trade between Galves-
ton and Tuxpan, Mexico. The Adolf
Flake is supplied with the latest patent
steering-gear, and is pronounced by
competent authorities as being the best
vessel ever turned out in Texas.

A FEROUS ACCIDENT

occurred, owing to the premature dis-
charge of a cannon. While the reading
of the Declaration was in progress, and
while Capt. J. R. Coffin was withdraw-
ing the swab for the third or fourth dis-
charge, the piece went off prematurely,
tearing off a portion of his right hand
and terribly lacerating the limb. His
face was also injured. He was blown
many feet from the muzzle. Mr. Chas.
Marston, who had charge of the vent,
was also somewhat injured. Mr. Coffin
was conveyed to the city. The affair
cast a damper on the celebration.

Unprecedented Rainfall on the
Headwaters of the Brazos and
Colorado—Great Havoc at Fort
Griffin—Rivers Now Falling.

[Special Telegram to the Galveston News.]
FORT GRIFFIN, July 4, 1876.

A terrific rain-storm, with but slight
intermission, prevailed here from the
25th to the 30th of last month, causing
a great rise of the Brazos River and its
tributaries. Clear Fork, upon which
this town is situated, rose 25 feet in 12
hours, and compelled the inhabitants of
the valley to flee to the hillsides. No
such flood was ever known here. It has
caused great damage to everything.

The main Brazos rose so as to cover
the tops of the telegraph poles. The
drift carried away the wire a distance
of forty feet. There has been no tele-
graphic or mail communication with
the East since the 24th of June.

The storm extended southwest as far
as camp Colorado, and many are suf-
fering greatly from its effects. The
rain is over now and the waters fast
receding.

ARE THE MOST DURABLE,
THE LEAST COMPLICATED,
HAVE GREATER FACILITIES,
CONSUME THE LEAST FUEL,

Will Bake, Cook, Roast and Broil quicker and
more even than any other stove made.

THEY HAVE NO EQUAL.

LYDIA THOMPSON having decided not
to come to America this year, the De-
troit Free Press says the only conso-
lation is to stand in front of the show
window of an artificial leg-maker.

Volunteer Work Day

The Old Kingsbury Aerodrome and the Pioneer Flight Museum are on Pershing Lane just off of FM 1104 in Kingsbury.

They usually have one or two days a month where they invite **volunteers** to come and help with the buildings, grounds, planes, vehicles, and other equipment.

The next Volunteer Work Day will be

Saturday, February 18th

There's always projects that should pique a variety of interests: the WWI Dodd Field Hangar and Car Barn, are still "works in progress", plus there are always aircraft and Model T's that need TLC. Please consider joining and helping out!

Kingsbury Calendar

Do you have a meeting or public event that you want people to **know** about? Just let us know and we'll get it into the Kingsbury Newsletter and on the [Calendar](#) page of kingsburytexas.org!

Get in touch by replying to this email or by going to the Contact page on the Kingsbury [website](#).

It's a great way to find out what's going on around town and to let others know what meetings or events you have planned that your friends and neighbors might like to attend.

Valentine's Cards From Kingsbury Past

Since Valentine's Day is this week, here are a few more pictures of the postcards.

Sandra Watts from here in Kingsbury has a great collection of postcards that her great aunt saved from 1907 to around 1909.

The backs of these cards have "post card" in a number of different **languages**:

Postkarte - German
Carte postale - French
Post card - English (hopefully you got that one!)
Cartolina postale - Italian
Briefkaart - Dutch
Brefkort - Norwegian
Correspondenzkarte - Bulgarian
Dopisnica - Slovenian
Dopisnice - Czech
Karta korespondencyjna - Polish
Levelező-Lap - Hungarian
Tarjeta postal - Spanish
Cartão postal - Portuguese
Lots of funny looking letters not on my keyboard - Russian

Postkarte — Carte postale — Post card — Cartolina postale
Briefkaart — Brefkort — Correspondenzkarte — Dopisnica
Dopisnice — Karta korespondencyjna — Levelező-Lap
Unione postale universale - Weltpostverein - Union postale universelle
Tarjeta postal — Cartão postal — ОТКРЫТОЕ ПИСЬМО.

Dear Buckie
why don't
you write
