Kingsbury Texas

News & Information Newsletter

Dear Kingsbury,

Here's the latest on what's going on in Kingsbury!

Here Comes December

Now that Thanksgiving is past, this week sees the first days of December!

December is the twelfth and last month of the year in the Julian and Gregorian Calendars. It is the seventh and last month to have the length of 31 days.

December got its name from the Latin word *decem* (meaning ten) because it was originally the tenth month of the year in the Roman calendar, which began in March. The winter days following December were not included as part of any month. Later, the months of January and February were created out of the **monthless** period and added to the beginning of the calendar, but December retained its name.

The zodiac signs for the month of December are

Sagittarius (until December 21)

Capricorn (December 22 onward)

December's birth flower is the narcissus which symbolizes good wishes, faithfulness and respect.

Holly and the paperwhite - a relative of the daffodil with lovely white blooms - are also flowers for those born in December.

December's traditional birthstone is the turquoise . It is considered a symbol of good fortune and success.

Month-long observances in December:

tanzanite are also considered to be December birthstones.

National Egg Nog Month
National Fruit Cake Month
National Pear Month
National Tie Month
National Root Vegetables and Exotic Fruits Month

DECEMBER 2020 LONG RANGE WEATHER FORECAST FOR TEXAS & OKLAHOMA

1 of 7

Dec 1-5 Sunny, warm
Dec 6-12 Showers, turning cold
Dec 13-22 Rainy periods, turning milder
Dec 23-28 Sunny, cold
Dec 29-31 Showers

December temperature 52° (1° above avg.) precipitation 1.5" (1" below avg.)

The dark winter night sky is a joy to behold. Look skyward on the night of December 13th after sunset for a chance to catch a glimpse of the Geminid meteors at their peak. Some shooting stars associated with the shower are expected to be visible each night from December 4th to December 17th this year.

It will be the best meteor shower of 2020, no question about it. Though it's a chilly time in the Northern Hemisphere, the Geminids will peak at an ideal time, just one day after the new moon.

You'll begin to see Geminids after sunset, and their numbers will increase up until about 2 o'clock in the morning, when you'll see the most Geminids

Unlike the most other showers, the Geminids are the by-product of an asteroid. The debris that falls onto Earth's atmosphere during this meteor shower comes from asteroid Phaethon.

Thunder in December presages fine weather.

A green Christmas, a white Easter.

As the days lengthen, so the cold strengthens.

If it rains much during the twelve days after Christmas, it will be a wet year.

There's A Day For Everything

In case you didn't already know ... there's something every day to **celebrate!** Here are some of the fun, unusual, or forgotten holidays this week:

December 5 - National Sacher Torte Day, Bathtub Party Day, International Ninja Day, National Repeal Day, National Rhubarb Vodka Day, Skywarn Recognition Day

Full Beaver Moon

This week will be the full moon known as the Full Beaver Moon.

The full Moon crests on Monday, November 30th at 3:30 a.m. Kingsbury time. Of course, it will be very close to full the night before, so plan to look for it starting on Sunday, November 29th, just after sunset!

November's full Moon was called the Beaver Moon by both the colonists and the Algonquin tribes because this was the time to set beaver traps before the swamps froze, to ensure a supply of warm winter furs. It's also when beavers become particularly active - building their winter dams in preparation for the cold season.

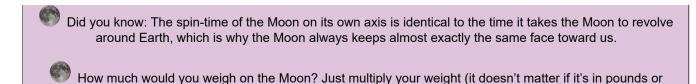

The November full Moon has also been called the Frost Moon and the Freezing Moon. Judging by the chilly weather that becomes more and more common at this time of year, it's not hard to understand how these names came about! Another name, the Digging (or Scratching) Moon, evokes an image of animals **scratching** at the fallen leaves, foraging for fallen nuts or remaining shoots of green foliage—with the implication that winter is on its way.

Some of the other names for the November full moon are:

Colonial American - Beaver Moon Chinese - White Moon Celtic - Dark Moon Medieval English - Snow Moon

Arapaho - Moon When the Rivers Start To Freeze
Cheyenne - Deer Rutting Moon
Mohawk - Time Of Much Poverty Moon
Choctaw - Moon of the Panther
Comanche - Heading to Winter Moon
Hopi - Moon of Fledgling Hawk
Pueblo - Moon When All Is Gathered In
Shawnee - Long Moon
Lakota - Moon When Winter Begins
Sioux - Falling Leaves Moon
Cherokee - Trading Moon
Choctaw - Sassafras Moon
Dakotah Sioux - Moon When Horns Are Broken Off

MOON FACTS

Lunar Eclupse

During the Full Beaver Moon this year, there will also be a penumbral lunar eclipse. This eclipse will be the fourth of 2020.

The penumbral lunar eclipse occurs when the Sun, the Earth, and the Moon are **imperfectly** aligned with each other. During this eclipse, the Earth blocks some of the Sun's light from directly reaching the Moon's surface, and covers nearly all or part of the moon with the outer part of its shadow.

As the penumbra is fainter than the dark core of the Earth's shadow, a penumbral eclipse is often difficult to differentiate from a normal full moon.

For a penumbral eclipse to take place, two celestial events must happen at the same time: The moon must be in the full moon phase, and the Sun, the Earth, and the Moon must all be nearly aligned, but not as perfectly aligned as during a total or partial eclipse.

Sky gazers need to remember three times to catch the penumbral eclipse: It starts before the full moon at 1:32 a.m.; reaches its maximum at 3:42 a.m. when 83% of the moon will be covered with Earth's faint shadow; and ends at 5:53 a.m. Monday morning.

Market Day

There will be a Farmer's Market / Market Day in **downtown** Kingsbury today and every Sunday, weather permitting. The event will be in

Downtown Kingsbury From noon to 3 Every Sunday

The event will be outside so you will be able to have the 6 foot safe distancing that is recommended and still be able to pick up farm fresh eggs and produce. Homemade pies, cakes, and other baked goods are also usually available.

Plant starts, fruit trees, herbs, Kingsbury T-shirts, food, drinks, lemonade, homemade soaps, and colorful face masks are usually on hand also.

Kingsbury Weather

Kingsbury weather for this week. You can always get the latest **weather** in Kingsbury on the Kingsbury website under <u>Calendar</u>.

For current temperature, rainfall totals, wind speed, etc. just click on the bar at the bottom to go directly to the Baker Ranch weather station in Kingsbury. You can view local conditions and all the other weather stations in the TexMesonet network.

What The ??

There was apparently quite the dress-up party in Kingsbury in March of 1954 for a "Womanless Wedding"! In the gymnasium of the Kingsbury School, men in all manner of dress entertained a room full of people with their antics. These men were all pillars of our community and apparently knew how to entertain a crowd!

> 1) Herman Schmidt and Bob Jones 2) Fred Maurer "as Mrs. (FDR) Roosevelt" and Son Halm 3) Adolph Knobloch and Jimmy Halm 4) Pat Baker and Max Tausch

Know someone that should be on the Kingsbury Newsletter eMail List?

Send them this email! All they need to do is go to the Kingsbury website, click on the weird little dog at the bottom of any page, and fill out their name and email address. It's so easy! Let's get everybody to be "in the know" about what's going on in their community.
